SAKSHEM GOTEKAR

Data Analyst | BI Developer | Microsoft Fabric & Power BI
sakshemgotekar@gmail.com | +91 9769093252 | Mumbai, India | linkedin.com/in/sakshemgotekar | sakshem.netlify.app

SUMMARY

Data Analyst and BI Developer with 3+ years building the data layer behind enterprise real estate reporting: Microsoft Fabric pipelines, Power BI semantic models and executive dashboards for 10+ clients including Godrej, Adani, DLF and Birla.

Cut manual reporting time by 60% and lifted campaign engagement by 30%. Microsoft-certified Power BI Data Analyst (PL-300), now extending into Databricks and Spark.

EXPERIENCE

Data Analyst / BI Developer, Reloy (Loyalie IT Solutions Ltd), PropTech Apr 2024 – Present | Mumbai

- Single-handedly built and maintain Data Analytics and Data Pipelines using AI, Python and SQL, with MonetDB pipelines & integrating 5+ data sources for 10+ enterprise real estate clients, cutting manual reporting time by 60% and enabling self-serve analytics.
- Designed 4+ Power BI dashboards and semantic models (advanced DAX) tracking referral funnels, campaign performance and agent activity with real-time KPIs, and added automated validation that improved data reliability by 40%.
- Built an n8n workflow on the Power BI REST API that pulls live report data and generates key insights for executives across report pages.
- Analyzed 1,657 Email and WhatsApp campaigns across 22 clients with Python and SQL; segmentation findings drove a 30% lift in campaign engagement.
- Mapped the acquisition-to-referral funnel, identified 3 drop-off points and informed a product experiment that improved lead conversion by 10%.
- Automated 5+ recurring extraction and transformation workflows with Python and Power BI dataflows, freeing about 8 analyst hours per week; defined KPI frameworks with product, marketing and client success teams.

Data Science Intern, Intellipaat Mar 2022 – Aug 2022 | Mumbai

- Completed 3 capstone projects (classification, regression, data visualization) in Python (pandas, scikit-learn, matplotlib) alongside the IIT Madras Advanced Certification in Data Science & AI.

Operations Analyst, CAG Pvt. Ltd Sep 2017 – Mar 2019 | Mumbai

- Increased annual profitability by Rs 15 Lakhs through data-backed operational controls and systematic rejection of non-compliant shipments identified via document analysis.
- Reduced documentation error rate by 25%, saving approximately Rs 5 Lakhs annually through process standardisation and anomaly detection.

TECHNICAL SKILLS

Data Platform: Microsoft Fabric (Lakehouse, Warehouse, Data Factory), dbt, Snowflake, MonetDB, ETL/ELT, data modelling
BI: Power BI (advanced DAX, semantic models, KPI design, REST API, performance tuning), Advanced Excel (Power Query)
Languages: SQL (CTEs, window functions, recursive queries, optimisation), Python (pandas, NumPy, automation)
Automation & AI: n8n, LLM API integration, MCP, agentic AI workflows
Analytics: Funnel, cohort and retention analysis, A/B testing concepts, KPI frameworks
Learning: Databricks, Apache Spark

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Advanced Certification in Data Science & AI, IIT Madras (Online) & Intellipaat
- Advanced Product Management Certification, Air Tribe
- Product Analytics Certification, Pendo x Mind the Product

EDUCATION

B.Sc. Information Technology, St. Xavier's College (Autonomous), Mumbai 2013 – 2016
